LOSE WEIGHT WITH HERBAL PHENTERMINE
Guaranteed to Work or Your Money Back

2 Free Bottles **No Prescription Necessary**
For a limited time you get 2 Free Bottles when ordering our Maximum Results Package.

Herbal Phentermine is a Non-Prescription appetite suppressant that is 100% natural and safe. Scientifically designed to create the similar effects of the popular prescription phentermine version, Herbal-Phentermine works to **increase your metabolism**, **suppress your appetite**, **burn calories** and **increase energy**.

One difference between Herbal Phentermine and Phentermine is that with herbal phentermine there is no prescription needed! Therefore, there is no online consultation, no doctor visit, no online questionnaire form and no waiting for a doctor's approval. Herbal Phentermine is an exclusive formulation of research-supported botanical ingredients designed to support a healthy diet.

Herbal Phentermine contains thermogenic ingredients which support an exclusive, all-natural nutritional supplement with **No Ephedra**, **No Ma Huang**, and **No Ephedrine**.

100% Guaranteed to Work or your money back!

Limited Time Offer

Rated NO.1 Weight Loss Pill on the Market!

Herbal Phentermine Can Help You:

- **Suppress Your Appetite**
- **Increase Your Energy**
- **Lose Excess Weight**
- **Increase Your Metabolism**
- **Burn Fat**
- **Stimulate Thermogenesis**
- **Burn Calories**
- **No Prescription Necessary**
- **No Embarrassing Doctor Visits**

What makes our Herbal Phentermine non-prescription appetite suppressant product so appealing?

Is it the all natural and non-physically addictive properties. Prescription phentermine poses the risk for too many potential side effects and drug interactions. Herbal-Phentermine works to **increase your metabolism**, **stop your appetite cravings**, **burn calories** and **increase your energy** without having to go get a prescription or see a doctor.

You do not need to resort to prescription drugs to achieve your weight loss goals.

Unlike prescription appetite suppressants, alternative therapies can be used with a greater amount of safety and ease. All natural supplements can support a safe and effective weight loss regimen. Natural supplements give you an excellent alternative to prescription strength appetite suppression drugs. These products have limited side effects, less drug interactions, and are less expensive than a lot of the prescription strength appetite suppressants available on the market today.

Don't Be Confused By Low-Priced Imitations

Herbal Phentermine contains 100% natural ingredients developed and researched by USA Laboratories. Remember you get what you pay for!!! Our product is manufactured in the United States of America in a fully GMP-compliant, certified manufacturing facility. You cannot purchase a higher quality product anywhere, and we stand behind its potency and effectiveness 100%.

Is Herbal Phentermine Safe?

Herbal Phentermine is 100% natural with no known side effects. There are no known interactions with any other herbal dietary supplement or drug. Our Herbal Phentermine contains **no ephedra**, **no ma huang**, and **no ephedrine** of any kind and are extremely safe if taken as directed.

Compare Phentermine Vs Herbal Phentermine

What are the differences of the herbal version of phentermine as opposed to the prescription version? Prescription Phentermine can cause Dry mouth, sleeplessness, irritability, stomach upset, painful urination...Doesn't sound too appealing does it? That is just the beginning. Side effects of the leading prescription brands of phentermine can also carry blurred vision, adverse effects to the central nervous system, and decreased sexual drive. Not only is **Herbal Phentermine a time saving solution** by not needing to go see a doctor or get a prescription it also frees you of any dangerous side effects. With its 100% natural ingredients, you never have to worry about side effects.

How Does it Work

Herbal Phentermine is a cutting-edge, advanced appetite suppressant, metabolism booster, fat burner and energy enhancer...all in one. With Herbal Phentermine, there are no more starvation diets, dangerous drugs or difficult exercises. It works all day and all night long!

The elite non-prescription Herbal Phentermine contains thermogenic ingredients which support an exclusive, all-natural nutritional supplement which includes:

L-Carnitine

Acetyl-L-carnitine (ALC) is for fatty acid oxidation - helping users burn unwanted body fat. Fatty acids are one of the key energy sources the body uses, and oxidation is the process by which they're broken down to create energy. The fatty acids cannot penetrate the inner mitochondria membrane (where they are burned for energy), and the key role of L-Carnitine is to transport fatty acids across the mitochondria membrane to allow for oxidation of the fats.

L-Carnitine plays an important role in energy production; It helps in weight loss and fat burning. It transports long-chain fatty acids into the mitochondria to metabolize and generate energy; Enhances cellular energy in the brain; Improves mental performance; Helps slow the effects of aging; Decreases symptoms of depression; Helps prevent cataracts; Used to support all bodily functions that have a height energy demand.

Green Tea

"Better to be deprived of food for three days, then tea for one." (Ancient Chinese Proverb) To sum up, here are just a few medical conditions in which green tea is reputed to be helpful: weight control, cancer, rheumatoid arthritis, high cholesterol levels, cardiovascular disease, infection, and impaired immune function.

The secret of green tea lies in the fact it is rich in catechin polyphenols, particularly epigallocatechin gallate (EGCG). EGCG is a powerful anti-oxidant: besides inhibiting the growth of cancer cells, it kills cancer cells without harming healthy tissue. It has also been effective in lowering LDL cholesterol levels, and inhibiting the abnormal formation of blood clots. The latter takes on added importance when you consider that thrombosis (the formation of abnormal blood clots) is the leading cause of heart attacks and stroke.

Camellia Sinensis

Camellia Sinesis activates the central nervous system, which may spar the body's ability to burn calories and unwanted fat cells through the Thermogenic process.

The phenol groups in Camellia Sinensis are extremely active, easily able to capture and neutralize free radicals and other pro-oxidants. Researchers have found that Camellia Sinensis is over 200 times more powerful than vitamin E in neutralizing pro-oxidants and free radicals that attack lipids (oils and fats). Camellia Sinensis is also 20 times more potent than vitamin E in reducing the formation of dangerous and potentially mutagenic peroxides that form in rancid fats and lard.

Alpha Lipoic Acid

The body needs Alpha Lipoic Acid (ALA) to produce energy. It plays a crucial role in the mitochondria, the energy-producing structures in cells. The body actually makes enough ALA for these basic metabolic functions. This compound acts as an antioxidant, however, only when there is an excess of it and it is in the "free" state in the cells. But there is little free ALA circulating in your body, unless you consume supplements or get it injected. Foods contain only tiny amounts of it. What makes ALA special as an antioxidant is its versatility—it helps deactivate an unusually wide array of cell-damaging free radicals in many bodily systems.

Bioperine and Piper Nigrum

Bioperine and Piper Nigrum's value is that it has been established to enhance the bioavailability of certain supplements through increased absorption. In other words, when combined with Bioperine, numerous vitamins, minerals, amino acids and anti oxidants are more efficiently absorbed and utilized in the body.

Because of its ability to create enhanced and more efficient means of nutrient transportation into the bloodstream, Bioperine may have a positive effect on thermogenesis, which would lead to an elevated metabolism. Notwithstanding, Bioperine and Piper Nigrum's real, proven value is in its ability to enhance the absorption of various nutrients which is the main benefit it provides to any fat burner compilation.

Biotin

Part of the vitamin B-complex; Biotin is also known as vitamin H. Biotin helps promote energy production, helps to maintain a healthy nervous system, good for hair (prevents greying and baldness) and healthy skin. Biotin is necessary for both metabolism and growth in humans, particularly with reference to production of fatty acids, antibodies, digestive enzymes, and in niacin (vitamin B-3) metabolism.

FAQ's

What Does Herbal Phentermine Do?

Herbal Phentermine is an exclusive formulation of research-supported botanical ingredients designed to support a healthy diet. Our goal was simple...developing a product that increases your metabolism, increases your energy, and controls your appetite.

What are the Ingredients of the Herbal Phentermine Formula?

Acetyl L-Carnitine, Green Tea, Camellia Sinensis, Alpha Lipoic Acid, Bioperine, Piper Nigrum, and Biotin.

Are there any side effects?

Herbal Phentermine is 100% natural with no known side effects. There are no known interactions with any other herbal dietary supplement or drug. Our Herbal Phentermine contains no ephedra, no ma huang, and no ephedrine of any kind and are extremely safe if taken as directed.

Are the results permanent?

Being overweight is the result of eating too much and giving in to cravings. With Herbal Phentermine eating less becomes a habit, resulting in permanent weight loss.

Is the package discreet?

Yes, all orders are shipped in discreet packaging.

How can I order?

You may order by credit card, check or money order. We accept payments online, by fax, call center and by mail.

What name will show up on my Credit Card statement?

Ultra Herbal or GSCM

Is there a money back guarantee?

Yes, we offer a 100% money back guarantee less shipping and handling if you are not totally satisfied.
